

CH11_004

ANSWER

USING FIELD VALIDATORS

1 mySimObject4

Finished Code:

```
void mySimObject4::initPersistFields()
{
    Parent::initPersistFields();

    addFieldV("testS32", TypeS32, Offset( mTestS32, mySimObject4),
        new IRangeValidator( -5 , 15 ),
        "A range validated S32 value");
}
```
