

CH11_006

ANSWER

USING CON::EXECUTE() AND CON::EXECUTEF()

1 mySimObject6

Finished Code:

```

ConsoleFunction( doAddItUp1, void , 1 , 1 , "doAdditUp1()" )
{
    static const char *myArgs[3];

    myArgs[0] = "echo";
    myArgs[1] = "10 + 10 == ";
    myArgs[2] = "20";

    Con::execute(3, myArgs);
}

ConsoleFunction( doAddItUp2, void , 1 , 1 , "doAdditUp2()" )
{
    Con::executef(3, "echo" , "10 + 10 == ", "20" );
}

ConsoleMethod( mySimObject6 , doDump1 , void, 2, 2, "obj.doDump1()" )
{
    static const char *myArgs[1];

    myArgs[0] = "dump";

    Con::execute( object , 2, myArgs );
}

ConsoleMethod( mySimObject6 , doDump2 , void, 2, 2, "obj.doDump2()" )
{
    Con::executef( object , 1, "dump");
}

```
